BUSINESS PROPOSAL

SEPTEMBER 2025

VELUSE AGENCY

GENERAL PLAN

PRESENCE

Strong local presence
built through site +
Instagram +
Facebook.

QUALIFIED LEAD GENERATION

Fewer high-fit buyers
> 100 random
inquiries.

SALES SCALE-UP

Focus sales efforts on
high-intent buyers.

PAIN POINTS

COMMON STRUGGLES IN REAL ESTATE SALES

Agents and builders get many inquiries every day, but most of them don't turn into real buyers. Without proper systems, follow-ups get missed, and in high-value deals, customers take time to build trust. These problems slow down sales and reduce results.

01

Unqualified Leads Waste Time

Too many inquiries don't match the ideal buyer profile, making sales inefficient.

02

No Centralized Lead Management

Leads scattered across calls, WhatsApp, and emails → follow-ups slip through the cracks.

03

Trust Gap in High-Ticket Purchases

₹6–7 Cr decisions need nurturing + credibility; one-off ads aren't enough.

03

A

ICP Targeting

→ Ads built only for serious buyers (HNIs, investors).

D

Efficient Budget Use

→ Phased campaigns prevent wasted spend.

B

CRM Integration (Veluse OS)

→ No lead gets lost, all tracked in one pipeline.

E

Sales Support

→ Dashboards & reminders keep their team focused on hot leads.

C

Automation

→ WhatsApp + email follow-ups to build trust & reduce drop-offs.

F

Transparency

→ Weekly reporting + campaign insights.

OUR FUNNEL AUTOMATION

01

Capture

All leads from ads, website, calls, and walk-ins are pulled into a single dashboard. No more scattered data across WhatsApp, emails, and phones.

03

Nurture & Close

Automated follow-ups through WhatsApp, SMS, and email keep prospects engaged until they're ready. This builds trust and improves conversion rates.

02

Qualify

Every inquiry is auto-checked for budget, location, and purchase timeline. Only serious buyers get passed to the sales team, saving time and effort.

07

08

BUILT ON GOHIGHLEVEL BACKBONE

Veluse OS is our custom system built on GoHighLevel , refined with our own workflows, automations, and dashboards.

PIPELINE INTELLIGENCE

Centralized pipelines track where every lead is in the journey, giving clarity at a glance.

AUTOMATION-FIRST APPROACH

From lead capture to nurturing, our OS minimizes manual work. Every repetitive task → automated.

SCALABLE INFRASTRUCTURE

Whether 50 leads or 5,000, the OS adapts without breaking. That’s how we support rapid growth.
